Hi Kristine. I renamed the zipped attachment as a .zap file. Please let me know if you still have trouble with it and I'll get someone more knowledgeable than me about these things to straighten it out. John

Jim – It appears that your attachment was removed from the email. If it is a *.zip file, could you please change the extension to *.zap and resend. EPA cannot receive zip files from outside entities.

Thanks,

Kristine Koch

Subject: RE: BERA GIS layers

Good morning Kristine. Per your request attached are the BERA GIS layers. If you have any questions or trouble opening the files please contact me or John Toll.

Jen is currently working on finding a time for a 30 to 60 minute conference call with me, you, and John to discuss the path forward for revising the appendix. The call will likely be sometime tomorrow (Friday) after 1:00pm.

Thanks,

Jim McKenna

Subject: RE: BERA GIS layers

Kristine,
We will coordinate with the LWG common consultants and get these to you as soon as practicable. I will contact you if we have any questions.

Thanks,

Jim McKenna

Subject: BERA GIS layers

Jim and Bob - EPA requests the GIS layers used to prepare the 2013 BERA Maps 6-28a and 6-28b (Benthic Weight of Evidence) to support the FS. The Comprehensive Benthic Risk Areas will be overlain on these BERA maps as part of an appendix describing the derivation of these areas. These GIS layers did not appear to be available on LWG's Portland Harbor portal.

Thanks,

Kristine Koch
